

Table of Contents

Construction of standardization system of construction engineering cost and international comparative study	1
<i>Huafeng Cui</i>	
Application and Optimization of High-Performance Concrete in Super High-Rise Building Structural Design	7
<i>Qing Liu</i>	
Analysis of Construction Key Points and Maintenance Measures for Urban Landscaping Projects	12
<i>Zhenmiao Liu</i>	
Building Structure Construction Simulation and Structural Safety Analysis Based on BIM Technology	17
<i>Huachun Sheng</i>	
Research on Multi-objective Collaborative Scheduling and Risk Assessment Method of Urban Underground Pipe Network	23
<i>Quan Wang</i>	
Influence of Deep Foundation Pit Support on the Stability of Underground Structures and Design Optimization	29
<i>Qiming Ren</i>	
Practical Analysis of Pile Foundation Technology in Civil Engineering Construction of Building Projects	34
<i>Qin Wan</i>	
Study on the Influence of Urban Micro-parks on Community Social Ecosystem Services	40
<i>Juan Yuan</i>	
Innovative Mechanisms and Practical Paths of Integrating Regional Culture into Modern Architectural Designs	45
<i>Zhiliang Xiao</i>	
Research on the "Elderly-Friendly + Child-Friendly" Multifunctional Design of Pocket Parks in Urban Aged Residential Areas	52
<i>Chenxi Wang</i>	
Research on Innovation Mode and Spatial Reconstruction of Architectural Design under the Background of Urban Renewal	57
<i>Bo Wang</i>	
Research on the Impact of Hydrogeological Conditions on Mine Geotechnical Engineering Design and Countermeasures	64
<i>Guangjinglong Xu</i>	

Practical Exploration of Construction Quality Management in Building Engineering	69
<i>Yuxin Xue</i>	
Research on Energy-Saving and Water-Saving Technologies in the Water Supply and Drainage Design of Civil Buildings	74
<i>Minwang Zhan</i>	
Research on the Impact of Urban Traffic Development on Municipal Road and Bridge Design and Countermeasures	80
<i>Pingping Zhang</i>	
Exploration of Safety, Stability, and Power Quality Issues in New Energy Power Generation	85
<i>Feng Zhou</i>	
Process Simulation and Technical Improvement of Hanging Basket Construction in Municipal Road and Bridge Projects Based on BIM Technology	90
<i>Jie He</i>	
Key Control Factors and Countermeasures in Quality Management of Municipal Road and Bridge Construction	96
<i>Guiqin Li</i>	
Four Key Elements for Effective Construction Project Management	102
<i>Jianguo Li</i>	
Quality Control Measures for Building Structure Engineering Strengthening Techniques	107
<i>Fuhu Liao</i>	
Application of Prefabricated Building Construction Technology in Construction Project Management	112
<i>Shengshang Wang</i>	
Problems and Countermeasures in Geotechnical Engineering Investigation and Foundation Design in Building Engineering	117
<i>Shuai Wang</i>	
Analysis of Prefabricated Building Construction Management Based on Intelligent Construction Technology	122
<i>Xudong Wang</i>	
Technical application and economic benefit analysis of green construction concept in municipal road engineering	128
<i>Zhitao Wang</i>	
Key Technical Points for Subgrade Surface Construction in Settlement Sections of Municipal Road and Bridge Engineering	134
<i>Zhanglei Wei</i>	

Construction Management and Application of New Building Materials in Landscaping Projects	139
<i>Hong Wei</i>	
Research on Schedule Control Strategies in Construction Project Management	144
<i>Yidong Wei</i>	
Disclosure of Construction Engineering Cost Information and the Construction of Industry Integrity System	149
<i>Yijun Weng</i>	
Exploration of Anti-leakage Construction Technology for Concrete Structures in Building Engineering	154
<i>Hao Wu</i>	
Research on Architectural Design Process Reengineering and Collaborative Innovation under the Background of Intelligent Construction	159
<i>Le Wu</i>	
Discussion on Construction Technology of Masonry Structures in Building Engineering	164
<i>Shukui Wu</i>	
Research on the Application of Bidding and Evaluation Methods in Construction Engineering	169
<i>Xian Wu</i>	
Analysis of Safety and Durability in Municipal Bridge Design	174
<i>Zhen Wu</i>	
Research on Optimization Paths for Safety Management at Construction Sites	179
<i>Wanggang Xiang</i>	
Refined Management of Urban Landscaping Maintenance and Its Impact on Landscape Design	184
<i>Mingli Xie</i>	
Design and Application of Garden Flowers in Urban Greening Landscapes	189
<i>Peizi Xu</i>	
Risk Assessment and Control Strategies in Construction Project Management under the Wave of New Quality Productive Forces	194
<i>Xiaoyu Xu</i>	
Analysis of Quality and Safety Management Paths for Housing Construction Engineering from the Perspective of Smart Construction Sites	199
<i>Jing Xu</i>	
Analysis of Green Building Construction Technology in Construction Engineering	205
<i>Kun Yang</i>	

Study on tree transplantation technology in urban landscape construction	211
<i>Li Yang</i>	
Risk Factors and Control Measures in Construction Decoration and Renovation Project Management	216
<i>Mingzhao Yang</i>	
Construction Engineering Quality and Safety Management and Quality Inspection of Engineering Materials	221
<i>Pengpeng Yao</i>	
Research on the Optimization of Municipal Water Supply and Drainage Design Based on the Sponge City Concept	225
<i>Na Yu</i>	
Research on the Optimization of Whole-Process Management of Construction Engineering Projects Based on BIM Technology	230
<i>Renqun Yu</i>	
Analysis of Safety Risk Management in Construction Engineering Projects	235
<i>Shiwen Yu</i>	
Technical Analysis of Concrete Crack Prevention and Control in Construction Engineering	240
<i>Bingxing Yuan</i>	
Quality Management Strategies in the Construction Phase of Housing Projects	245
<i>Chunfeng Zhang</i>	
Optimization Design of Building HVAC Systems Based on Digital Twin Technology	250
<i>Daoran Zhang</i>	
Research on Risk Identification, Assessment, and Control Strategies in Construction Project Management	256
<i>Fucheng Zhang</i>	
Research on Roof Waterproofing Construction Technology and Quality Control in Construction Engineering	261
<i>Jian Zhang</i>	
Practical Discussion on Safety Management of Temporary Electricity at Construction Sites	267
<i>Rui Zhang</i>	
Research on Project Cost Management Based on Whole-Process Engineering Consulting	271
<i>Xianfei Zhang</i>	
Safety Risks and Prevention Strategies in Quality Management of Building Decoration Projects	275

<i>Xiaoman Zhang</i>	
Management Strategies for Whole-Process Cost Consulting in Construction Engineering Projects	280
<i>Jingwei Zhao</i>	
Research on the Application of Whole-Process Engineering Cost Consultation in Construction Project Management	285
<i>Mei Zhao</i>	
Discussion on the Informatization Construction of Quality and Safety Supervision Management in Construction Projects	289
<i>Xun Zhao</i>	
Analysis of Key Points and Countermeasures for Cost Control in Construction Engineering Management	295
<i>Jingjing Zheng</i>	
Research on intelligent management and control of municipal road project progress and quality driven by multi-source data	300
<i>Xiao Zheng</i>	
Countermeasures for On-site Construction Management of Municipal Road and Bridge Engineering	306
<i>Qiupeng Zhong</i>	
Analysis on cost control and cost optimization strategy of civil engineering in prefabricated building construction	312
<i>Cui Zhou</i>	
Exploration of Construction Technology and On-site Construction Management Paths in Building Engineering	318
<i>Jizhong Zhou</i>	
Research on the Causes and Preventive Measures of Common Quality Issues in Municipal Road and Bridge Construction	323
<i>Jun Zhou</i>	
Construction Management Strategies Based on Quality Management System	328
<i>Yangyang Zhou</i>	
Application of Construction Management Control in Architectural Engineering Management	333
<i>Guojin Zhu</i>	
Rainwater Recycling in the Design and Construction of Urban Landscape Engineering	339
<i>Shengliang Zhu</i>	
Construction risk prediction and dynamic control method of water supply and drainage pipe network for complex urban environment	344
<i>Xiangsu Zeng</i>	

Research on the application and innovation of construction project supervision in the whole life cycle management of engineering projects	350
<i>Yun Chen</i>	
Lifecycle Management Method for Urban Road Construction Based on BIM and Digital Twin	356
<i>Cunyi Du</i>	
Problems and Solutions of Building Electrical Facilities Installation in Assembled Building Construction	362
<i>Yong Du</i>	
Durability evaluation and reinforcement design method of municipal bridges under extreme climate	368
<i>Jie Hu</i>	
Planning Path of Coordinated Development of Residential Building Design and Industrial Park Driven by Multi-dimensional Demand	374
<i>Juan Huang</i>	
Energy Saving and Resource Optimization in the Construction Process of Green Building Project Management	381
<i>Qiang Jia</i>	
Research on Real-time Monitoring and Risk Assessment of Structural Deformation of Key Nodes in Urban Subway	388
<i>Lei Jin</i>	
Application and Sustainable Strategies of Green Prefabricated Buildings in Urban Residential Renewal	395
<i>Xing Jin</i>	
Construction of Safety Culture and Performance Assessment in Construction Site of Building Engineering	400
<i>Jia Kang</i>	
Research on intelligent system of whole process supervision of building engineering construction	406
<i>Hui Kong</i>	
Study on environmental impact assessment and sustainable management of construction projects in construction stage	413
<i>Qian Li</i>	
Research on high-precision mapping of complex terrain based on UAV remote sensing and 3D laser scanning	419
<i>Haifei Peng</i>	
Study on application of new membrane separation technology in advanced treatment and recycling of municipal sewage	425

<i>Rongyang Qian</i>	
Integrated Strategy of Construction Engineering Supervision in Construction Safety and Environmental Management	431
<i>Hong Rao</i>	
Multi-objective optimization and performance evaluation method for seismic structure design of building engineering	437
<i>Xuewen Shu</i>	
Construction Technology and Intelligent Decision-Making of Municipal Roads Under Complex Geological Conditions	443
<i>Dongdong Sun</i>	
Research on supervision process reengineering and efficiency improvement in high-performance building construction	449
<i>Fengkui Tan</i>	
Application and Optimization of Smart Construction Technology in Construction Management of Large Public Buildings	455
<i>Guozhang Wang</i>	
Model and Application Research on the Collaborative Design of Stormwater Comprehensive Utilization and Drainage Network	461
<i>Zhifeng Wang</i>	
Life Cycle Management and Intelligent Maintenance Strategy of Urban Roads and Bridges	467
<i>Xin Wu</i>	
Integrated Analysis of Smart Stormwater Storage and Drainage Strategies for Extreme Rainfall Events	473
<i>Minfeng Xu</i>	
Research on Energy Consumption Prediction and Intelligent Regulation of Building Electrical System Based on Artificial Intelligence	479
<i>Li Zhang</i>	
Research on Design Methods for Green Retrofits of Existing Buildings in the Context of Building Stock Renewal	485
<i>Shilei Bai</i>	
Research on Sustainable Design Strategy of Existing Building Reconstruction from the Perspective of Urban Renewal	492
<i>Jing Chong</i>	
Application and Sustainability Analysis of New Eco-Friendly Materials in Municipal Road and Bridge Construction	499
<i>Yue Guan</i>	

Establishment of a Regular Management Mechanism for Green Pest and Disease Control in Urban Street Trees	506
<i>Weiwei He</i>	
Study on Construction Safety Management and Risk Early Warning Mechanism of High-rise Building Engineering	511
<i>Yu Hong</i>	
Discussion on Whole-Process Cost Control in Construction Project Management	518
<i>Aiwen Liu</i>	
Research on Green Building Design Concepts and Spatial Optimization in Improving the Human Living Environment	523
<i>Jun Liu</i>	
Dynamic Control Method for Urban Flood Control and Drainage System Based on Multi-source Hydrological Data	530
<i>Zhifeng Wang</i>	
Research on Management Models in Supervision Quality Control of Housing Construction Projects	536
<i>Erye Xu</i>	
Application of IoT Monitoring and Maintenance Management Systems in Urban Parks under the Background of Smart Landscaping	541
<i>Fen Ye</i>	
Discussion on Construction and Maintenance Management Strategies of Landscape Greening in Urban Construction	546
<i>Qin Zhang</i>	
Modeling and Optimization of Renewable Energy Integrated HVAC Systems for Low Carbon Buildings	551
<i>Guangming Zheng</i>	
Effective Application of UAV Surveying and Mapping Technology in Engineering Measurement	557
<i>Guoqiang Zhou</i>	
Exploring Human-Centered and Ecological Approaches in Architectural Design Under the Healthy City Concept	561
<i>Wei Zhou</i>	
Research on Residential Building Planning and Design Strategies for Low-Carbon Urban Development	568
<i>Shilei Bai</i>	
The Influence of Multi-subject Collaboration Mechanism on the Performance of Municipal Engineering Project Management	575
<i>Ziqing Bao</i>	

Research on Planning and Design of Municipal Water Supply and Drainage Systems from the Perspective of Urban Renewal	582
<i>Fei Chen</i>	
Research on the Construction and Optimization Methods of Supervision Quality Evaluation Systems for Complex Engineering Projects	586
<i>Xianglin Du</i>	
Construction and implementation strategy of quality management system for large-scale public building projects	593
<i>Chuankui Du</i>	
Research on Risk Identification and Supervision Intervention Mechanisms in the Construction Phase of Building Projects	600
<i>Zhen Fang</i>	
Research on Digital Early Warning and Decision Support of Construction Safety Supervision	607
<i>Zhinian Hong</i>	
Research on Construction Progress Management and Critical Path Optimisation for Complex Structural Projects	614
<i>Jinsong Hu</i>	
Adaptability and Durability Analysis of High-Performance Pavement Materials in Municipal Road Construction	621
<i>Sujuan Li</i>	
Industrial Park Wastewater Treatment Project Design and Effluent Discharge Optimization	627
<i>Zan Li</i>	
Exploration of Digital Transformation Path of Construction Engineering Management in the Background of Smart Construction	632
<i>Shanwen Shi</i>	
Research on Supervision Strategies for Quality Monitoring and Risk Early Warning in High-Rise Construction	639
<i>Yuan Tian</i>	
Big Data-Driven Research on Optimizing Municipal Infrastructure Maintenance and Management	646
<i>Hai Wang</i>	
Research on Supervision Strategies and Quality Risk Control in Green Building Construction	653
<i>Wenlong Wu</i>	
Research on management innovation and performance evaluation of municipal engineering projects under PPP mode	660

<i>Xin Wu</i>	
Research on Key Technologies and Methods of Construction Safety Supervision of Large Public Building Projects	666
<i>Fei Yang</i>	
Research on Energy-Saving Control and Sustainable Development Strategies for HVAC Systems Under Green Building Concepts	672
<i>Peigeng Yang</i>	
Construction process optimisation and cost analysis in assembly building project management	679
<i>Jun Yu</i>	
Research on Dynamic Monitoring and Early Warning Technology for Construction Safety Supervision in Building Projects	686
<i>Hongmei Zhang</i>	
Research on risk identification and control method of construction project management	693
<i>Qiang zhao</i>	
Key Issues and Solutions in the Implementation of Prefabricated Building Engineering Supervision	699
<i>Peng He</i>	
Municipal Bridge Health Monitoring and Risk Assessment Method Based on Multi-source Data Fusion	704
<i>Huiyang Jiang</i>	
Research on Prefabricated Paving Technology for Temporary Roads in Construction Sites	709
<i>Lei Peng</i>	
Research on risk identification and dynamic control technology of municipal road construction	714
<i>Yong Yang</i>	
Research on Project Cost Management Throughout the Entire Process of EPC Project Construction	720
<i>Zhenwei Guo</i>	
Research on Quality Control Mechanisms for Engineering Supervision in the Application of High-Performance Building Materials	725
<i>Hanhuai Wang</i>	
Analysis of Civil Construction Management and Paving Technology in Landscape Engineering	732
<i>Chen Bao</i>	
Preliminary Exploration on the Construction of Urban Landscape Gardens and the Maintenance Management of Road Greening	738

<i>Huobao Bao</i>	
Exploration on Construction Technology and Management of Building Engineering	744
<i>Xiaolong Bao</i>	
Application of Ecological Architecture Theory in Residential Building Design	749
<i>Ying Bo</i>	
Effective Strategies for Enhancing Construction Technology Management Levels in Building Engineering	754
<i>Xingyao Cai</i>	
Analysis of Problems and Countermeasures in Engineering Quality and Safety Supervision and Management from the Perspective of Government Supervision	760
<i>Li Cao</i>	
Construction Technology Management of Deep Foundation Pit Support in Building Engineering Construction	765
<i>Benshun Cen</i>	
Implementation Strategies for Whole-Process Cost Consulting in Construction Projects	770
<i>Cheng Chen</i>	
Application Strategies of Engineering Cost Follow-up Auditing in Construction Site of Building Projects	775
<i>Chuankai Chen</i>	
Research on High-Precision Mountain Road Mapping Technology Based on UAV and LiDAR	780
<i>Chuanzhong Chen</i>	
Measures for the Party A in Construction Engineering to Effectively Conduct On-site Technical Management	785
<i>Jinxin Chen</i>	
Strategies for Effectively Enhancing Quality and Safety Supervision in Construction Projects: A Preliminary Study	790
<i>Jun Chen</i>	
Research on Integrated Design of Construction Engineering Cost Management Platform in Cloud Computing Environment	795
<i>Kai Chen</i>	
Discussion on Construction Technologies for Exterior Wall Insulation and Decoration Engineering in Building Construction	801
<i>Qiang Chen</i>	
Research on the Bidding and Evaluation Methods for Engineering Supervision under a Highly Open Market Environment——A Case Study of a Large Public Building Project	806
<i>Yuan Chen</i>	

Research on Housing Construction Project Management and Quality Control Based on Total Quality Management	811
<i>Keyong Cheng</i>	
Research on Dynamic Prediction and Intelligent Control of Construction Project Cost Driven by Big Data	817
<i>Jie Ding</i>	
Research on Dynamic Cost Management and Optimization Strategy of High-rise Building in Construction Stage	823
<i>Yanping Du</i>	
Research on the Implementation Path of Foundation Pit Support Technology in Building Civil Engineering Construction	829
<i>Yizhou Fang</i>	
Exploring the Application of Energy-Saving and Environmental Protection Technologies in Residential Building Construction	834
<i>Xuefeng Fei</i>	
Exploration on the Influencing Factors and Countermeasures of Construction Project Management	839
<i>Min Fu</i>	
Innovative Strategies for Construction Project Management Based on Construction Quality Control	844
<i>Bao Geng</i>	
Application Analysis of Geotechnical Engineering Survey Technology under Complex Geological Conditions	849
<i>Yongyuan Gu</i>	
Research on Space Optimization and Building Performance Improvement in Prefabricated Residential Design	854
<i>Chuan He</i>	
Exploration of the Value of Safety and Construction Technology Management in On-site Construction of Building Engineering	859
<i>Hongbin He</i>	
Analysis of Construction Technology for Long-Span Beam-Arch Composite Steel Bridges in Municipal Road and Bridge Projects	864
<i>Zhiwen Hong</i>	
Multi-Objective Energy-Saving Control Strategy for HVAC Systems Under Complex Climatic Conditions	869
<i>Xinxin Hou</i>	
Research on Sustainable Management of Civil Engineering Cost Based on Life Cycle Cost Analysis	876

<i>Xiuyue Hu</i>	
Application of Post-Pouring Strip Construction Technology in Engineering Projects	882
<i>Zonghao Hu</i>	
Practical Exploration of BIM Technology in Construction Quality Control of Building Engineering	887
<i>Jun Ji</i>	
Application of Frame-Shear Wall Structure Construction Technology in Building Engineering	892
<i>Jicai Jiang, Zuocheng Wang</i>	
Research on Shotcrete and Anchor Support Technology for Deep Excavation Slopes in Geotechnical Engineering Design	897
<i>Yu Jiang</i>	
Construction Technology for Foundation Reinforcement with Cement-Soil Mixed Piles in Municipal Road Projects	903
<i>Jun Jin</i>	
Application of Concrete Pouring Construction Technology in Construction Engineering	908
<i>Bo Li</i>	
Research on Construction Progress Management and Control of Municipal Road and Bridge Engineering Based on BIM Technology	913
<i>Daoyu Li</i>	
Application and Optimization of Intelligent Construction Technology in Municipal Road Construction	918
<i>Jijun Li</i>	
Technical Key Points of Municipal Water Supply and Drainage Pipeline Construction	823
<i>Jialian Li</i>	
Effective Approaches to Construction Engineering Cost Control in Construction Project Management	928
<i>Jiasong Li</i>	
Design and Performance Assessment of High Efficiency HVAC Systems Driven by Renewable Energy	933
<i>Shuo Li</i>	
Design and Implementation of Construction Project Cost Decision Support System Driven by Artificial Intelligence	938
<i>Xiayun Lin</i>	
Analysis of Construction Treatment Technologies for Asphalt Pavement Cracks in Municipal Road and Bridge Engineering	944
<i>Guanghui Liu</i>	

Effective Strategies for Quality Supervision and Management of Housing Construction Projects	949
<i>Jie Liu</i>	
Technical Analysis of Construction Techniques in Architectural Decoration Projects under the EPC General Contracting Model	955
<i>Mingliang Liu</i>	
The Role of Construction Cost Consulting Services in Investment and Financing Decisions of Construction Projects	960
<i>Wangqiang Liu</i>	
Study on the Mechanism of Construction Engineering Supervision in Green Construction and Energy Saving Management	966
<i>Wei Liu</i>	
Analysis of Measures for Integrating Ecological Concepts into Landscape Design and Construction	972
<i>Xuejuan Liu</i>	
Optimization Strategies for Quality Inspection and Control of Materials in Municipal Road and Bridge Engineering	977
<i>Yanan Liu</i>	
Research on risk sharing and benefit evaluation of construction project cost management under PPP mode	982
<i>Yang Liu</i>	
Exploration of Waterproof and Anti-seepage Construction Technology in Building Engineering Construction	989
<i>Zhaoyou Liu</i>	
Research on Maintenance and Management Strategies for Municipal Roads and Bridges	994
<i>Yuanchun Ma</i>	
Application of 3D Visualization Intelligent System in Geotechnical Engineering Investigation and Design	999
<i>Gu Nie</i>	
Research on Construction Management Strategies for Building Engineering Based on Low-Carbon Economy	1004
<i>Bao Qiang</i>	
Research on Effectively Improving the Management Level of Construction Technology in Building Engineering	1009
<i>Rui Qu</i>	
Research on Contract Management in Construction Project Management	1014
<i>Youzhi Rao</i>	

Discussion on Key Technologies for Sewage Treatment in Municipal Water Supply and Drainage Design	1019
<i>Ruoxin Ren</i>	
Social demand response mechanism and optimization path in public building design	1025
<i>Wanping Shao</i>	
Discussion on Implementation Measures for Safety Responsibilities in Construction Engineering Supervision	1031
<i>Zhanghua Shao</i>	
Exploration on the Application of Aluminum Formwork Technology in Housing Building Engineering Construction	1037
<i>Fadong Shi</i>	
Exploring the Application of Energy-Saving Technologies in Building Electrical Design	1043
<i>Lei Shi</i>	
Application of Settlement Control Technology in Municipal Water Supply and Drainage Pipeline Construction	1048
<i>Zihao Su</i>	
Optimization of Cost Management Mode Based on Whole-Process Engineering Consulting	1054
<i>Kang Sun</i>	
Discussion on the Characteristics of Construction Technology Management in Building Engineering and the Application of Information Technology	1060
<i>Jiabai Tang</i>	
Intelligent Pre-alarm System for Construction Cost Risk Under Multi-Source Data Fusion	1066
<i>Judong Tao</i>	
Research on the Application of Optimization Methods of Network Planning Technique in Construction Management of Building Engineering	1072
<i>Zaijun Tao</i>	
Research on Digital Management and Optimization of Municipal Infrastructure under the Background of Smart City	1077
<i>Feng Wang</i>	
Analysis of Quality Supervision and Safety Management Measures in Construction Engineering	1084
<i>Jinping Wang</i>	
Collaborative Whole-process Cost Control in Engineering under the EPC Turnkey Contract Mode	1089
<i>Ke Wang</i>	

Analysis of Construction Risks and Discussion on Safety Supervision in Building Engineering	1095
<i>Qiang Wang</i>	
Research on Optimization of Municipal Road Construction Management under Intelligent Construction Environment	1101
<i>Ruochen Wang</i>	
Research on Construction Technologies for Building Structure Strengthening	1107
<i>Fuhu Liao</i>	
Research on Sustainability and Economic Efficiency of Structural Design under the Concept of Green Building	1112
<i>Qing Liu</i>	
Planting and Protection Measures for Seedlings in Urban Landscaping Construction	1117
<i>Zhenmiao Liu</i>	
Intelligent Analysis and Construction Coordination of Prefabricated Building Structure Design	1122
<i>Huachun Sheng</i>	
Study on Green Design and Operation Optimization of Urban Drainage System under the Concept of Low Carbon	1128
<i>Quan Wang</i>	
Optimization Design and Construction Control of Deep Excavation Support Structures in Geotechnical Engineering	1133
<i>Qiming Ren</i>	
Research on Decarbonisation Path and Technological Innovation of Architectural Design under the Perspective of Sustainable Development	1139
<i>Zhiliang Xiao</i>	
Research on Concrete Pouring Technology and Crack Control in Construction Engineering	1146
<i>Qin Wan</i>	
Landscape Design Practice of "Ecological Restoration and Cultural Inheritance" in Industrial Heritage Site Renewal	1150
<i>Chenxi Wang</i>	
Research on the Regulation Mechanism of Project Cost under the Changing Environment of Construction Market	1155
<i>Huafeng Cui</i>	
Research on the integration path of historical and cultural block protection and modern architectural design	1161
<i>Bo Wang</i>	

Research on Landscape Material Selection and Sustainable Design under Low-Carbon Principles	1168
<i>Juan Yuan</i>	
Discussion on Geotechnical Engineering Design Technology Based on Risk Control	1174
<i>Guangjinglong Xu</i>	
Analysis of the Application of Mathematical Modeling Technology in Construction Management	1179
<i>Yuxin Xue</i>	
Application of Sponge City Concept in Water Supply and Drainage Design of Civil Buildings: Dilemmas and Solutions	1184
<i>Minwang Zhan</i>	
Study on Considerations for Bicycle and Pedestrian Passage in Municipal Road and Bridge Design	1190
<i>Pingping Zhang</i>	
Application and Development of New Energy Power Generation in Electric Power Construction	1195
<i>Feng Zhou</i>	
Design Methods for Structural Reinforcement of Municipal Road Bridges	1200
<i>Jie He</i>	
Research on Efficiency Improvement Methods for Coordinated Construction of Municipal Roads, Bridges, and Water Supply Pipelines	1205
<i>Guiqin Li</i>	
A Brief Discussion on the Application of Electronic Information in Construction Engineering Management	1210
<i>Jianguo Li</i>
